Sir:

**SUBMITTAL OF FORMAL DRAWINGS**

Enclosed herewith are five (5) sheets of Corrected Drawings identified as "replacement sheets" for FIGS. 1 through 5. These are presented to overcome the Draftperson's objections provided with Paper No. 7.

Please substitute these formal corrected drawings for the drawings (four sheets) previously submitted in the above-identified patent application. Margins are corrected for all figures, and Figures 3A-C views are now numbered consecutively as 3A, 3B and 3C. This necessitated division into two sheets.

With respect to Figure 3B, it should be noted that the Draftsperson's objections included objection number 10, that "Lines, numbers, letters not uniformly thick and well-defined, clear, durable and black . . ." It is noted that Figure 3B summarizes multiple data curves, and these are overlain and therefore these may present apparent irregularities in thick "lines" that actually represent multiple similar data events. This is not an unusual representation of such data, and acceptance of this and other drawing provided herewith is respectfully requested.

Respectfully submitted,

  
Joseph Fischer
